

COHRED

SENIOR FELLOW / SENIOR ASSOCIATE – RESEARCH ETHICS

COHRED is an international, independent, non-profit and non-governmental organisation with offices in Geneva, Switzerland; Gaborone, Botswana; and Belo Horizonte, Brazil.

We drive health, equity and socio-economic development by optimizing the production and use of research and innovation for health. We work globally but prioritize low income countries and populations.

We deliver solutions and services in two complementary ways : through direct technical support and through global action.

One of our flagship products is *RHInnO Ethics* – a cloud-based software service aimed at improving the quality of ethics review of health research while at the same time greatly accelerating the review process. It has now been installed in nearly 15 sites with options for 30 more, in 6 African countries. The ultimate goal is to get more ethical research done and bring products sooner to those who need it most – globally.

COHRED is currently seeking expert support from one (or more) persons who have senior, hands-on experience in running Research Ethics Committees / Institutional Review Boards. As a Senior Fellow and COHRED Associate, you will be able to help us to greatly accelerate and improve quality of ethics review of health research in the research that matters to solve global health problems in low and middle income countries.

As a non-profit organisation, we recover costs to make sure the RHInnO Ethics platform can grow and be maintained – while we aim to price it as low as possible. We therefore request your time on a volunteer basis – full-time or part-time. We will be able to cover any operational expenditures. You can on-site in Geneva or Gaborone – or simply, off site, at home.
