

Social bookmarking links

Pages on the COHRED website include link to a range of social bookmarking and sharing websites.

What is social bookmarking?

These sites allow you to store, tag and share links across the internet. You can share these links both with friends and people with similar interests. You can also access your links from any computer you happen to be using.

If you see information on the COHRED website that you want to save for future reference or share with others, simply click on one of these links to add to your list.

All of these sites are free to use but do require you to register.

Once you have registered you can begin bookmarking. Each of the sites works slightly differently. Check the links below to find out which service best suits your needs.

You can find out more about social bookmarking on this [Wikipedia article on social bookmarking](#).

For more details about each of these services:
